

PSYCHIATRY AND THE NEW MEDICINES CAN ZOLOFT REPLACE FREUD?

Laura Eisenberg, RN, a psychiatric nurse whose specialty is psychopharmacology, will probably tell us yes---and no. The new medicines have brought remarkable improvements in the practice of psychiatry; however, there will always be a need for someone to listen and occasionally subtly advise.

Her education includes a Bachelors of Psychology and Social Work, Bachelors of Science in Child Development, Bachelors of Science in Nursing, and a Masters of Science in Nursing, all from the University of Texas. [Rick Vasser](#) will introduce.. *More about Laura at the end of this newsletter.*

THE PROGRAM NEXT WEEK

Just before elections, who better to bring the program than two of our own, superlobbyist, **Eric Glenn**, and **Matt Mathews** Senator Kay Bailey Huchinson's Campaign Manager.

The program might be a debate or might be a surprise speaker. Whatever else, it certainly won't be dull--and, you can bet, it won't be a tell all.

Lauren Gunn, the Legation's director will be our special institutional guest during this month. Lauren would like visit with you about the Legation and our club's planned relationship with clubs in France.

We will begin with the program on the 26th, *The Great Pig War*, a recounting of the both humorous and historical events that occurred when French culture encountered frontier Texas.

AND, SPEAKING OF EUROPE, PLEASE MEET AARON BULKLEY

Actually, you might have met him on the 35th. **Aaron Bulkley** is a former Rotary exchange student to Finland. That experience was the first of many trips to Europe. Now, his career (TicketCity.com) takes him often to France. Aaron has an interest in forging closer Rotary ties between clubs in Austin and Paris.
